Yes, send, that is Madison Baxter's signature, I thought she was on the TO. I will resign

Subject: Hope Iron and Metal ERRS Invoices

Since you are likely to be out dealing with Harvey clean-up for some time, may I send a couple of ERRs invoices for you electronically to review and sign off on? Hank Thompson is now the PO for ERRs and has agreed to let me send these electronically for now. You can sign them electronically, but the signature has to be yours – either a jpeg version or whatever other method you use.

I have one that I can send you right away for Hope Iron and Metals – I sent it in paper format and it's now overdue – if that's OK with you. I have another one that's about ready – I'm just waiting for one time sheet that is missing and then I can finish that up. In the meantime, can you tell me whose signature is on the attached 1900-55? I don't recognize it. Remember – only those whose names are on the task order are allowed to sign 1900-55s.

Thanks and let me know when I can send these to you.
